PROFILE SUMMARY

Enthusiastic and detail-oriented Full-Stack Developer and aspiring AI/ML Engineer with over 6 months of experience in JavaScript, React.js, Node.js, and REST API development. Proficient in building scalable, end-to-end web applications with a strong emphasis on code performance, security, and user experience. Skilled in Python-based machine learning tools such as Pandas, Scikit-learn, and PyTorch, with hands-on experience in data preprocessing, model training, and deployment. Fast learner, effective communicator, and a collaborative team player passionate about leveraging AI-driven solutions to solve real-world problems.

EDUCATION

Air University **Sep 2021 – July 2025**

Bachelor of Science in Software Engineering *Islamabad, Pakistan*

CGPA: *3.20/4*

- Relevant Coursework: Data Structures, Software Engineering, Algorithms Analysis, Operating Systems, Database Management Systems, Artificial Intelligence, Information Security, Probability and Statistics, Computer Architecture, Web Programming, Machine Learning, Natural Language Processing and Computer Networking.

TECHNICAL SKILLS

Full-Stack Development: JavaScript, ReactJS, Next.js, Node.js, Express.js, HTML5, CSS3, Tailwind CSS, Bootstrap
Backend & Databases: PostgreSQL, MongoDB, MySQL, MS Access, REST APIs, Firebase
UI/UX & Design Tools: Figma
Version Control & Dev Tools: Git, Linux, Google Colab
Testing & QA: Manual Testing, Automation Testing, JUnit, Jest
Additional Skills: Python (NumPy, Pandas, Scikit-learn, PyTorch), Supervised & Unsupervised Learning, Neural Networks, Model Evaluation, Data Preprocessing, ServiceNow

EXPERIENCE

Ideation **Oct 2025 – Present**

Junior Software Engineer *Islamabad, Pakistan*

- Contributing to the development of full-stack web applications using React.js, Node.js, Express, and MongoDB to build scalable and responsive solutions.
- Developed and deployed Merit HR Platform, an AI-powered human resource management system utilizing machine learning models for intelligent recruitment and performance analytics.
- Improved backend efficiency and API performance, achieving a 30% faster response time and better scalability across modules.

Air University **June 2024 – Aug 2024**

Project Intern *Islamabad, Pakistan*

- Built a responsive web app using Next.js, Tailwind CSS, Node.js, and PostgreSQL.
- Integrated RESTful APIs and optimized backend communication for scalability.
- Designed architecture to support future ML-based recommendation features.

PROJECTS

TaskKar (FYP) | *Next.js, Prisma, PostgreSQL, Tailwind CSS, Node.js*

- Built a service marketplace web app with scalable backend and responsive frontend.
- Implemented smart task matching features and explored ML-based algorithms to recommend service providers.

Secure Link | *Flutter, OVPN Servers*

- Developed a secure VPN app for Android with a modern user interface and over 90 servers.
- Utilized OVPN servers to ensure reliable and fast connections.

ML-Powered Resume Screener | *Python, NLP (spaCy, Scikit-learn), Streamlit*

- Programmed an intelligent system to extract and match resume keywords to job descriptions.
- Used TF-IDF and cosine similarity for semantic matching and ranking.

AI-Powered Mock Interview Platform | *Next.js, Tailwind CSS, Gemini API, PostgreSQL, Drizzle ORM*

- Developed an AI-driven mock interview platform that simulates real-world interview scenarios for job seekers.
- Integrated Gemini API to generate personalized interview questions and feedback based on user profiles.

CERTIFICATIONS

HTML, CSS, and JavaScript for Web Developers – Johns Hopkins University (Coursera) **Aug 2023**

ServiceNow ITSM Bootcamp – Zones IT Solutions **Feb 2025**
