PROFILE SUMMARY

Enthusiastic and detail-oriented Full-Stack Developer with over 6 months of professional experience in JavaScript and its modern frameworks. Proven ability in building robust, end-to-end applications with a keen focus on performance and security. Passionate about Artificial Intelligence and Machine Learning with hands-on experience in Python-based libraries like PyTorch and Pandas. Fast learner, effective communicator, and a collaborative team player committed to leveraging AI-driven solutions to solve real-world problems.

EDUCATION

Air University **Sep. 2021 – Present**

Bachelor of Science in Software Engineering *Islamabad, Pakistan*

- Relevant Coursework: Data Structures, Software Engineering, Algorithms Analysis, Operating Systems, Database Management Systems, Artificial Intelligence, Information Security, Probability and Statistics, Computer Architecture, Web Programming, and Computer Networking, Machine Learning, Natural language processing.

TECHNICAL SKILLS

Core Programming: Python (Pandas, PyTorch, NumPy, Scikit-learn) and C++
AI/ML: Supervised & Unsupervised Learning, Model Evaluation, Data Preprocessing, Neural Networks
Frontend Development: HTML5, CSS3, JavaScript, Bootstrap, ReactJS, Tailwind CSS, Figma
Backend Development: Node.js, Express.js, MySQL, MongoDB, MS Access
Mobile Development: Flutter
Software Testing: Manual, Automation, Junit, Jest
Miscellaneous: Linux, Firebase, Git, REST APIs, ServiceNow, Google Colab

EXPERIENCE

Airblue Ltd **Feb 2021 – Sept 2021**

IT Intern *Islamabad, Pakistan*

- Developed frontend (HTML/CSS/JavaScript) and backend (Node.js/Express) components for internal web tools.
- Assisted in deploying analytics solutions to monitor system performance, laying the foundation for future AI-based automation.
- Reduced technical issue resolution time by 15% through proactive troubleshooting.

Air University **June 2024 – Aug 2024**

Mobile App Developer Intern *Islamabad, Pakistan*

- Built mobile features for an app with Flutter and integrated RESTful APIs, improving app engagement by 20%.
- Assisted in optimizing backend communication, preparing architecture for potential ML-based recommendations.
- Ensured responsive and reliable performance on Android devices through rigorous testing.

PROJECTS

TaskKar (FYP) | *Next.js, Prisma, PostgreSQL, Tailwind CSS, Node.js*

- Built a service marketplace web app with scalable backend and responsive frontend.
- Implemented smart task matching features and explored ML-based algorithms to recommend service providers.

Secure Link | *Flutter, OVPN Servers*

- Developed a secure VPN app for Android with a modern user interface and over 90 servers.
- Utilized OVPN servers to ensure reliable and fast connections.
- Designed and implemented the app using Flutter, emphasizing performance and user experience.

LEADERSHIP / EXTRACURRICULAR

Air University Cultural and Arts Society **Fall 2021 – Present**

Operations Team Lead *Air University, Islamabad*

- Directed operational activities for the cultural and arts society, ensuring seamless execution of various cultural events.
- Developed and implemented strategic plans to optimize event workflows, resulting in a 20% increase in event efficiency.
- Recognized for exceptional leadership in fostering a collaborative and high-performing environment within society.

Zones IT Solutions **Feb 2025**

ServiceNow Developer *Islamabad, Pakistan*

- Completed a 2-week intensive bootcamp focused on mastering ServiceNow and IT Service Management (ITSM).
- Learned Incident & Problem Management, Change Management, Service Catalogs, Dashboards, and Reporting.
- Gained hands on experience with REST APIs, integrations and scripting.
